

SUSTAINABILITY (2021-2022)

Division of Philosophical, Religious, Theological, Social & Cultural Studies

Christoffer Lammer-Heindel, Ph.D., Chair

The sustainability minor calls students to understand the physical, social, and ethical dimensions of environmental sustainability, from the local level to the global. Building on that foundation, we challenge our students to actively work together to collectively prioritize our environment for present and future generations.

Requirements for the minor in Sustainability:

Req	Course	Cr's
